Precision Photonics Receives Colorado Companies to Watch Award

Boulder, CO, April 29, 2009 -- Precision Photonics Corporation (PPC) has been officially named a 2009 Colorado Companies to Watch (COCTW) award winner.

With a growing community of scientific, technical and commercial industries, the Colorado contest is very competitive. In this field, Precision Photonics stands out as a growing local company that enhances the positive image of small business through service to their customers and community.

"We are very pleased to be recognized for the company we have built, and ultimately for the acceptance and support from our customers for our unique technologies", says CEO Chris Myatt. "We feel the best is yet to come, so keep watching!"

Nick Traggis, VP of Photonics for PPC states "Being located in the Front Range of Colorado has been one of the keys to our success. We benefit from frequent collaboration with the local universities and national labs, a climate and culture that make recruiting out of state talent an easy proposition, and a thriving local community of photonics businesses."

About Colorado Companies to Watch:

COCTW is a consortium of private and public organizations dedicated to supporting second-stage businesses in Colorado, presented by the Colorado Office of Economic Development and International Trade. In its inaugural year (2009), Colorado Companies to Watch attracted over 250 applications.

About Precision Photonics:

Precision Photonics Corporation (PPC) manufactures custom coatings, optical components and assemblies, targeting applications in telecommunications, defense, aerospace, biomedical, and semiconductor manufacturing. By applying the latest advances in optical coatings and precision metrology, PPC is able to offer price-competitive, short lead-time manufacturing at the very highest levels of precision, whether for as few as 10 or as many as 10,000 units.
